.

Everything is good

Try to reach every student and ask for their doubts

Very good

.

Excellent

Super

All good

All are good

Everything is fine

N/A

good

Na

...

Nice

Projector use in classes more understanding

Need good faculty

Please communicate with students and don't see partiality to students.

Preparing well

Very Good teaching

To convert the subject in easy way to the students

Very much effective learning

Phones are allowed hostel

Maintain proper equipment

Use media and feedback

There is nothing to improve.

Try to reach every student and ask for their doubts.  
Make teaching a two way interaction.

Providing library hours for 3 days in a week

Hope teachers teach lessons with more clear examples for a better understanding and encourage all the students equally

Lack of qualified teachers and no projector

Syllabus was covered in the class

All the best

Active Learning Strategies: Encourage instructors to adopt active learning techniques such as flipped classrooms, collaborative projects, and experiential learning to boost student engagement and critical thinking skills.

Nothing.... They all are perfect ..

more projects and real time problem to solve

Good gaining of knowledge in our institution

Tq u

Kindly give more project and real time problem to solve.

Courses can be more research oriented.

New technology monthly updates can be given.

Learning process

4 or 5 years

1. Teachers have to interact with each and Every student
2. Should encourage each and every one not a single person or some group of persons
3. Should treat everyone Equally (In my point of view...some of the teachers were like Being Nice to the students who mostly talk to them .....

Teaching wise it's well and Good .... Can teach better with modern technology.....Thank you

Providing more workshops

Good

Good communication

Understanding for students

Helps for students development

Teacher will encourage the students in extracurricular activities also

The teaching process is good

teaching should include more live examples like projectors

Not bad

Professional Development

Focus on the skills not the syllabus

Institution should concentrate on for MBA to contain more communication skills and some experienced curriculum to get more knowledge on course

By providing ICT tools such as LCD projector, Multimedia, etc. while teaching Can improve the teaching learning experience in our institution

Need to not focus on records or assignments marks that are unnecessary and make all students give full marks to them .

Teach some hard topics through videos with real time examples

There was good in study but sports are not well and no library periods and no freedom

Provide sufficient facilities like arranging projectors in classrooms

Explanation

Faculty are good  
Thank You

Is good

Good.

Allow mobile phones during mid exams

Please don't cut lab marks, internal marks

Need to focus on every student.  
And improve there academic score.

Encourage curricular activities sports and scientific programs and teach with technology and interact with each and every student and know their difficulties in studies

Thank you.....

Give library time

Maths teacher will slowly go and take 2 examples enough but not concentrate on students will learning or not

Faculty has to improve and to attach with students for a safe and good teaching

Try to reach every student and ask for their doubts.

Encourage interactive learning and provide real life examples related to content

There is no practical learning

There is no fans 🇶🇪

There is no cool water 💧💧💧 available in the college in this summer 😊😊😊

- 1.Start small,think big
- 2.Utilize latest technology
- 3.priotize students relationship

Communications skills need to improve

Interaction between students and faculty should be improved

With more examples while explaining the topic

1)Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction

- 1.Interact with students
- 2.Conduct some cultural activities to make our brains free
- 3.Some of our faculty was very good but....,some of them are trying to complete their syllabus in a limited time,because of that we can't catch or understand the syllabus easily

Offer more support for students outside of class: Many students struggle with time management, study skills, or understanding the course material. Consider offering more support services for students outside of class, such as tutoring centers, workshops on study skills, or mental health counseling.

Allow students to use the library

Teach with good learning skills with utilisation modern technology

Friendly staff,

- 1.treat all the students equally

Creative learning

I have no suggestions because the overall teaching and learning experience is good.

Intrect with students

Don't skip class, cooperative learning, experiential learning.

There's no suggestion for them they are very good and kindly to communicate with them
